

the SENTINEL

KEYBOARD CONTROL

The principles of keyboard control are exactly the same as for the mouse, with one important exception. When you are using the keyboard, the cursor is not on screen all the time as with the mouse. By using the 'space bar' you may toggle the cursor on and off at will. Other than that, the principles of control and movement are the same.

KEY GUIDE

Pause	Right Cursor Key	'Space'	Toggle Cursor On/Off
Continue	Down Cursor Key	T	Create Tree
S	Left	B	Create Boulder
D	Right	R	Create Synthoid
L	Up	A	Absorb
/<	Down	Q	Transfer To Other Synthoid
*	Restart Game (Numeric keypad only)		

PLEASE NOTE Pressing the left-hand mouse button automatically puts you in mouse control, AND Pressing any of the direction controls or the 'Space' on the keyboard will put you in keyboard mode.
