At last! The Force is with your computer! Remember the excitement you felt when you first saw Star Wars?

Never before had space battles been so realistic. So furiously focused. Especially that last stomach-churning attack on the Death Star.

Remember? How could you possibly forget? There's never been an adventure quite like Star Wars.

Then came a coin-op game that captured the urgency and excitement—and made you part of the action.

Now Star Wars enters a new dimension. So get a firm grip on your controls. Because when you boot up *this* Star Wars, you'll think

When you reach the Death Star, you must survive devastating laser fire.

you've zoomed right into the middle of the movie itself.

Suddenly, you'll be Luke Skywalker, piloting your agile X-wing fighter as you attack the Empire's Death Star. It will call for every bit of skill and courage you can muster.

And more than courage or skill... may The Force be with you!
