## THE ULTIMATE STRATEGY PUZZLE

**S**wap is a sophisticated puzzle game that will challenge your brainpower to its' limits. Working against the clock you'll need all your analytical abilities and speed to master the situation. Increasing and faster

levels of difficulty mean the challenge continues on an upward spiral. The object of the game is to clear the board completely. To do this you must swap around geometrical shapes of various colors to create homogenic blocks which will then disappear. Careful planning is required to avoid forming isolated clusters. Once you've mastered one level,

different types of shapes and increasing speeds will present you with tougher challenges just when you think it's getting easier.

### Features:

- three different tile shapes with various sizes and six alternative colors to customize your level of difficulty
- more than 300 levels of play, millions of layouts and billions of possible combinations
- practice mode and full competition mode with high-score table
- extra game features - penalties for wrong moves
- avalanche function for when things get out of hand
- extra tiles for when your brainpower starts to flag.

So, if you think you're a puzzle master .....think again!
