Two Wheeled Flight Sim.

"It's a simple sport; just get around the racetrack fast."

"Chase top speed and don't make rookie mistakes. The pack of 7 other Grand Prix racers are right there to dismiss you to last place at the rumor of a lapse in concentration. Keep the hounds at bay. Never look at the turn; stay focused 10 yards ahead and exit hard."

Team Suzuki takes you on an over-the-handlebars, 1st person racing tour of 32 Grand Prix tracks around the world. You'll pilot 3 classes of pure thoroughbreds, from the nimble 125cc's, the relentless 250cc's, to the 500cc heavyweights.

Sign up for a few practice laps, a single race or learn speed and control in intense training sessions. When you're ready, enter the competitive drama of a gruelling 16 race Grand Prix season. View your hard banks and deep "S" turns on Instant Replay and from any of 6 different camera angles.

Team Suzuki'll bring you to your knees. . . .

Pop 4 downshifts into the turn and slide out underneath the leader.

Explode down the Test Track straight-away to check out the incredible power of the Suzuki 500. Better now than at Laguna Seca.

The Race Helicopter View instantly summarizes race position and helps you create strategies.

Run an inside line out of Anders-torp's final turn, but watch your RPM's, not the grandstand.
