

THUNDERHAWK™

THE ULTIMATE
HELICOPTER
COMBAT SIMULATOR!

512k Required
1 Meg Recommended
Joystick Optional

Congratulations - it's 1995 and you've been selected for the hottest seat in helicopter history: the cockpit of the AH-73M Thunderhawk. This is the Pentagon's brand new gunship, never before flown in combat, and it's up to you to put her through her paces.

AH-73M Thunderhawk is the most advanced helicopter simulation ever brought to the computer screen. In addition to being a combat simulator, Thunderhawk is also a full-featured, challenging game.

So zip up your flight suit, adjust your sunglasses, and control your nerves 'cause this one makes Nam look like a day at the beach!

Thunderhawk soars above the rest with these features:

- Campaign scenarios with a multitude of missions.
- A true "world" to interact with - not just a cockpit, but other locations and characters that respond to your actions.
- A helicopter armed with the latest in weaponry, electronic countermeasures, functioning displays and computer-aided targeting systems.
- Realistic missions reflecting actual military conflicts and contingency plans.

**Zip up your flightsuit,
adjust your sunglasses
and control your nerves, cause this one
makes Nam look like a day at the beach!**
