THE SIMPLISTICALLY COMPLEX PUZZLE GAME

The TIMEKEEPERS are an elite police force from Earth's future established to protect the 4th dimension. Their latest mission concerns the antics of a psychotic warlord who has hidden devastating nuclear devices in four different time zones of Earth's history. Four platoons of 14 men have been chosen to travel back in time to locate and disarm the bombs.

Using your skills and judgement you must organize, delegate, coordinate and manage each platoon through 60 treacherous levels in order to find the devices that threaten Earth's future. But beware for the levels are riddled with complex puzzles, obstacles and traps.
