# DESCEND INTO FIVE FAST WORLDS OF TERROR!

**T**he terror began... When you were eight and your twin brother Alex vanished into the black maze of mine tunnels beneath Vista forge — the home of your Uncle Boris' demon-filled Waxworks.

**T**wenty years later... Uncle Boris dies, leaving you his collection of fiendish displays — and the stupefying news that Alex is alive. Possessed by a 500 year old family curse, your brother schemes to resurrect the undead denizens of...

**F**ive blood-soaked worlds of the past, present and future... 19th Century London, ancient Egypt, an abandoned mine shaft, a haunted cemetery and the malevolent chambers of the Waxworks itself.

**U**our only hope... To save Alex lies in removing the curse of the witch Ixona. And a courage you're not sure you possess.

Over 100 hours of spine-chilling role playing action. Enter the gates of a haunted cemetery and unearth zombies that are starved for human flesh.

"In your face" terror from a first person perspective. Engage in hand-to-hand combat with over 100 horrible enemies.

Iron delves with an intuitive "point & click" interface. Can you stop Alex from turning the evil entities of five cursed worlds loose on mankind?

Blood curdling VGA color graphics. Experience the chills of classic 80's Sci-Fi films as mutant monsters turn a coal mine into a tunnel of terror.

Suspenseful soundtrack is the score for the scores. Transport yourself to ancient Egypt where a 5000 year old priest waits to imbibe your blood.

Countless weapons, artifacts and objects to grab and use. How do you stop Jack the Ripper? Use magical relics to get advice from your dead Uncle Boris.
