

Changes for the Amiga Version of Zany Golf

Getting Started

To make a copy of Zany Golf on a one-drive system: Boot your system with Workbench (1.2 or 1.3). Eject your Workbench disk and insert the original Zany Golf disk. Click on the Zany Golf disk to highlight it, then select "Duplicate" from the Workbench menu. Follow the on-screen prompts to make a working copy of Zany Golf.

To make a copy of Zany Golf from CLI: At the CLI prompt, type: DISKCOPY df0: to df0: (Press Return)

To make a copy of Zany Golf on a two-drive system: Boot your system with Workbench (1.2 or 1.3). Eject your Workbench disk and insert the original Zany Golf disk in drive df0:. Insert a blank diskette in drive df1:. Click on the icon of the original Zany Golf and drag the icon until it covers the icon of the blank diskette.

To make a copy of Zany Golf from CLI: At the CLI prompt, type: DISKCOPY df0: to df1: (Press Return)

Important: Once you've made your copy of Zany Golf, you'll need to rename the new disk "Zany". Each time you play Zany Golf, you'll be prompted to insert the original Zany Golf disk.

To play the Amiga version of Zany Golf from a floppy, you can either:

- A. Turn on your Amiga, then insert the original or backup Zany Golf disk when a Workbench disk is requested. This will automatically boot Zany Golf. Remember, if you boot the game with the backup disk, you'll be prompted to insert the original disk for a brief moment. You cannot boot Zany Golf from Workbench.

or

- B. Type Zany:Zany at the CLI prompt (or Shell window). (Note: If Workbench is running, Zany Golf will require more than 512K memory.)

To install the Amiga version of Zany Golf on a hard drive, type the following at the CLI prompt (or into the Shell window):

```
makedir dh0:zany (Press Return)
copy zany:zany dh0:zany (Press Return)
makedir dh0:zany/files (Press Return)
copy zany:files dh0:zany/files all (Press Return)
```

To play Zany Golf from the hard drive, eject the disk named "Zany" and type the following:

```
assign zany: dh0:zany (Press Return)
zany:zany (Press Return)
```

The program will ask you to insert your original Zany Golf in any disk drive. After a moment, the program will ask you to insert your backup or the original disk in the drive. Instead, remove the ORIGINAL disk and click the left mouse button. A new game of Zany Golf will now run from your hard drive until you end the game.

To quit Zany Golf, you can turn off the computer or reset it by pressing Ctrl + Amiga + Amiga.
