Interactive fiction software from

Infocom is unlike anything you've ever experienced. It's a whole new dimension in storytelling.

Think of your favorite story. Now think of the main character in that story. And imagine that YOU have become that character. You are standing in his shoes, in his world. You have people to meet, places to visit, and challenges to face. It's all just as vivid as anything you've ever experienced in real life. The decisions are yours... and so are the consequences.

In interactive fiction, you communicate with the story through conversational English sentences typed into your computer. The plot unfolds as you decide what to do next, drawing you into a world so involving that it taps your adrenaline as much as your intellect. With hundreds of alternatives at each step, your adventure can last for weeks and even months.

Journey to a place limited only by your imagination—the world of Infocom's interactive fiction.
