*An old, oddly youthful man turns toward you slowly. His long silver hair dances about him as a fresh breeze blows. "You have reached the final test, my friend! You are proved clever and powerful, but this is not yet enough! Seek me when you feel yourself worthy!"*

**ZORK III: THE DUNGEON MASTER** draws you into the deepest and most mysterious reaches of the Great Underground Empire. Nothing is as it seems. And the one responsible for the shadow and darkness - the **Dungeon Master** - embodies the greatest mystery of all. In this test of wisdom and courage, you will face countless dangers. But what awaits you at the culmination of your odyssey is well worth risking all.

**ENTER THE WORLD OF THE MASTER STORYTELLERS.**

Interactive fiction software from Infocom is unlike anything you've ever experienced. It's a whole new dimension in storytelling. Think of your favourite story. Now think of the main character in that story. And imagine that **YOU** have become that character. You are standing in his shoes, in his world, you have people to meet, places to visit, and challenges to face. It's all just as vivid as anything you've ever experienced in real life. The decisions are yours... and so are the consequences.

In interactive fiction, you communicate with the story through conversational English sentences typed into your computer. The plot unfolds as you decide what to do next, drawing you into a world so involving that it taps your adrenaline as much as your intellect. With hundreds of alternatives at each step, your adventure can last for weeks and even months.

Journey to a place limited only by your imagination - the world of Infocom's interactive fiction.
