1942

SCENARIO

It is 1942, and war is raging in the Pacific. The enemy's fleet and airforce are growing in strength. It is up to you to neutralise their numbers in a daring sea mission. Your carrier will take you as far as it dares, but from then on you are on your own. Fly your plane over enemy territory and installations, scattered islands and rough terrain. Smart manoeuvring and skilful aerobatics are required to outwit the enemy planes; recovering the mystery POW or capsules will give your plane extra capabilities. Be prepared - enemy gunners have their sights set on you, and their pilots are prepared to die to threaten your mission. The carrier wants your safe return - but have you the will to survive?

SCENARIO

Nous sommes en 1942, et la guerre fait rage dans le Pacifique. La flotte et les forces aériennes de l'ennemi sont de plus en plus fortes. Il vous appartient de réduire leurs nombres au plus bas niveau possible. Vous contrôlez une puissante base aérienne qui peut le faire, mais à partir de la zone dite "hot zone". Placer votre avion sur le territoire et les installations de l'ennemi, sur des îles défendues et sur de terribles accidents. Des manoeuvres ingénieuses et des succès aériens sont nécessaires pour dépecer les capsules mystérieuses POWer cachées à notre avion des capacités supplémentaires. Mais soyez prêts car les minitailleurs de l'ennemi ont leurs visuels braqués sur vous, et leurs pilotes sont prêts à mourir afin de faire échouer votre mission. La défensive attend votre Hotspot et tout, mais attend-elle le talent de survie.
