ACE of ACES

INSTRUCTIONS

QUICK CARD

- First, insert the disk and type: LOAD "*", 8, 1 and press RETURN.

- Press the fire button to leave any title screen.

- Your Group Captain will offer you the choice of:

Practice or Mission(s)

- If you select **practice** the game will load and you will start in the air ready to fight enemy aircraft. If you select **mission(s)** you will be required to select one or more targets, be given an intelligence report, and be asked to outfit your plane with appropriate amounts of fuel and ammunitions before taking off. To fly a successful mission you must seek and destroy all of the selected targets and return to home base.

- While in the air, change views by giving the fire button two quick taps. Then push the joystick in one of the directions as outlined below. You may also type the appropriate number key.

Double Click and:
Up: Pilot View or press #1
Left: Port View or press #2
Right: Starboard View or press #3
Down: Navigator View or press #4
Center: Bomb Bay or press #5

- You may see your current status and pause the game by pressing space bar or F7.
- Restart the game by pressing F1 or the RESTORE key.
- Toggle the sound on and off with the F3 key.
- Use F5 key to abort the mission and set compass marker to return to home base.
- For further instructions on the operations of your plane and the various missions read the detailed documentation.   ACO-32-26-0
