The Exciting Challenge of
Sport Flying

CASSETTE

Acro JET

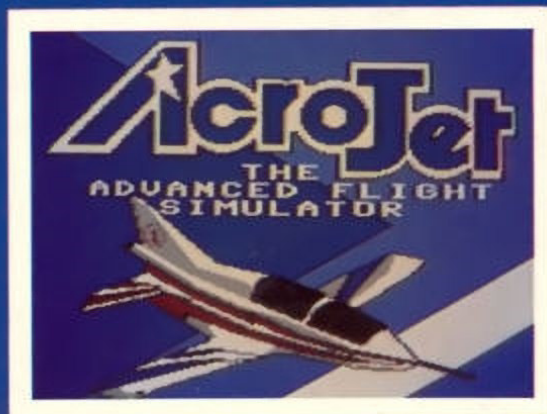

The Sports Jet Simulation

MICRO PROSE
SIMULATION • SOFTWARE

Another simulation from the creators of F-15 Strike Eagle and Silent Service.

Acro JET

SCREEN SHOTS MAY VARY

Experience the thrill, excitement and split second action of real aerobatic flying.

Acrojet is a highly accurate simulation of the BD5-J jet – a fully acrobatic sports plane.

It features outstanding 3-D graphics, sophisticated instrumentation (including multiple CRT and digital electronics), and lightning fast joystick response.

Tighten your safety harness and attempt some of the most difficult, terrifying manoeuvres ever performed.

Practise first at high altitude, then advance to low altitude. Flying now becomes extremely dangerous with no room for human error.

The ultimate challenge for Acrojet pilots is the Decathlon of Sports Aviation Events. Up to four players can compete for the World's Greatest Sport Pilot title. Events include the death defying Inverted Ribbon Cut and Cuban Eight.

Have you got the skill and courage to win?

ACROJET FEATURES

- ▶ Highly accurate advanced flight simulation
- ▶ Outstanding 3-D graphics
- ▶ Full cockpit instrumentation
- ▶ "In-the-slot" 3-D flying perspective
- ▶ Game mode: Decathlon of Sports Aviation Events
- ▶ Comprehensive Operations manual
- ▶ Hundreds of hours of constructive entertainment
