C-64 Educational Version

Apple Adventure Version

First of all, let us introduce you to BUCKAROO BANZAI™. He is not just a neurosurgeon and a particle physicist, he drives a super-sonic jet powered automobile and displays his musical talents with a rock band in East Texas.

In the adventure of BUCKAROO BANZAI™, you, as Buckaroo, must disarm the doomsday bomb, that has been left on earth by the evil Lectroids. This bomb is of complex design and operation and will destroy the world unless Buckaroo can find it.

What will Buckaroo do . . . now that the bomb has entered the final countdown stages . . . The bomb will go off today - so Buckaroo must act fast.
