

ALICE IN WONDERLAND™

Loading Your Adventure on the Commodore 64™

1. Insert a joystick in Control Port 2. For character and cursor control on the Commodore 64, you must use a joystick.
2. Turn on your disk drive, computer, and television or monitor.
3. Place the ALICE IN WONDERLAND disk, with Side A facing up, in the disk drive.
4. Type LOAD "WIND",8 and press the Return Key.
5. When the computer responds READY, type RUN and press the Return Key.
6. The main program will load. Shortly thereafter, a message will appear: "Insert Side B and press spacebar."
7. Remove disk from disk drive. Turn the disk over so Side B is facing up. Reinsert the disk and press the spacebar.
8. The introduction to the game will start playing immediately. It will provide you with your first clues to aid in your quest.

Note: The introduction replays continuously. You may exit the introduction by pressing the joystick button.
