BANDITS™

Your job is simple enough, just guard the supplies on the lunar supply base. Sounds easy, huh? Well, wake up and have some coffee, partner! The name of this game is Bandits, remember? Surely you don't think you're going to stand around and scare off an occasional shop-lifter. You see, every criminal in space is after your supplies and each has a uniquely devious method of trying to get them. For instance, the Phalanxis will come after you with heat-seeking bullets. The Torrents will use napalm bombs to blow you away. And then, there are the Carriers that'll drop bouncing Nuisants on you in an effort to send you to an early retirement.

Armed with a mobile laser gun and protected by a limited amount of shield energy, you score by blasting these greedy galactic pickpockets into cosmic dust. The more of them you blast, the higher you score, but the quicker the Bandits attack. Get Bandits and get ready for some non-stop action!

- **1983 CES SHOWCASE AWARD WINNER**
