KAAATHWAAACKKKK!

"HORGHT HWUG MAORK GWYSTEK!"

(that's crazed barbarian for "this really makes me mad")

Gorth is Pee-O'd! After a feeding frenzy of mammoth entrailia, he was interrupted by vixen of the volcano, Mariana, who cried in words available at the time: "Drax... is back... Gorth do... max whacks... with axe... now!"

And he thought about what he and his blood-crusty axe would soon face again...

...the purple pack-o'-plenty with a penchant for gnawing on noggins.

...And, those nasty Pit Things with their squiggly tongues and monster chompers.

...the grouchy dungeon dude in the kinky shorts that packs a wicked wallop.

...the cave-dwelling razor-tooth tiger that can cut him down to cat chow.

CHOOSE! between two barbarian warriors—Gorth or Mariana!

SEARCH! steamy valleys, dank caves, and slimy dungeons to get to Drax's inner sanctum!

EXECUTE! over 10 axe moves on 18 gross creatures in 80 weird chambers.

EXPERIENCE! one-player madness with fast, dangerous action!

HIDE! this game from the nerdlly and the squeamish!
