BREAK

STREET

There's a new gang in town. The Stingrays. The only way to protect your turf is to challenge them with style. Break out your freshest moves and breakdance them back to where they came from. Shake 'em up with your moonwalk, snake and tut. If they aren't shaking in their sneakers yet, give 'em your windmill and waves. You'll send them scurrying with your scorpion. Good work, they've retreated to their own street to polish their moves!

Superior graphics enable you to learn each move.

Break Street is a game of challenge and skill. Play in a team or on your own. Enjoy specially designed choreography while you improve your breaking expertise. You can slow down the moves so that you can actually learn each dance, step by step. Soon you'll be ready to challenge any breakdancer on the street.
