THE WAY OF THE WARRIOR

BUSHIDO

THE WAY OF The WARRIOR

At your disposal are several characters, ranging from a monk to a Samurai warrior. Each has his own special qualities, from sheer strength in hand-to-hand combat, to guile and cunning. Your warrior does, however, have a magical belt which can transport him back to base and safety if his life is severely endangered. Once there he can re-train the extra skills needed and attempt another assault on the fortress.
