Instructions

You are Sir Lancelot. Your quest is to destroy the wicked wizard of Castle Cavelon. This can only be achieved by negotiating the six levels of his castle. Beware the evil wizard's mystical powers! He will conjure demons of many forms to hinder your progress. To attain the next level the door pieces must all be collected. Pick up shields for extra bonus. Help is at hand! When Excalibur appears pick it up and achieve indestructibility. But beware – the power is only temporary. Enjoy your game.
