**GET
OUT YOUR
BUG BLASTER AND
SAVE THAT
FUNGUS!**

THE THRILL OF THE ARCADE GAME

An insidious invasion of multiplying insects (centipedes, jumping spiders, poisonous scorpions, and frenzied fleas) pose different perils to the mushroom patch. You must repeatedly blast enraged creepers and stubborn obstacles or lose your enchanted fungus. Remember to listen for the distinctive sounds of the attacking bugs; and watch out for blasted centipede segments, each one grows a new head!
