RISK™

The World Conquest Game

RISK™ is a classic game of strategy. This superb computer implementation allows you to play with up to 6 friends, or solo against the computer. Computer RISK™ provides intelligent opponents to challenge your powers of strategic planning. There are imaginative graphical interpretations of the game elements, including large, scrolling maps. There's a game-save facility and rule variations to choose from.

You must build armies, fortify your frontiers, deploy your forces effectively and accurately assess the position of your enemies in order to obtain your objectives.

RISK™ pulls no punches—prepare for ruthless battles with General versus General and cunning traps laid—not a game for the feint-hearted!
