

Critical Mass™

Commodore 64 Addendum

To Begin:

To load the game, place the Critical Mass Disk in drive #1 and type in:

LOAD "SIRIUS",8

Press the RETURN key. When you receive the "READY" prompt, type in:

RUN

Press the RETURN key.

PLEASE NOTE:

Commodore 64 users are able to use the SAVE and RESTORE commands on the original Critical Mass disk. It is not necessary (also not possible) to make a back-up copy.

Special Commands:

The ***MO** and ***M** commands are not available on Commodore 64 Critical Mass. To adjust the volume, use the volume control on your monitor or television set.

The **SAVE GAME**, **RESTORE GAME**, **HINT** and **INVENTORY** commands function as described in the instruction booklet.

To **REVIEW** the last few commands, press the **f7** key. To return to the game play screens, press the **f5** key.

Important Notice To Commodore 64 Owners:

If the disk fails to load in four minutes, try it on another computer to eliminate the possibility of a bad diskette. All of our products are tested prior to shipping.
