Crusade in Europe

0600 hrs. June 6, 1944. The D-Day Invasion begins. The pressure is on you to lead your troops through one of the greatest campaigns of World War II.

Crusade In Europe is a challenging, easy-to-use strategic simulation. Extensive research ensures historical accuracy as the Battle for Normandy, Race for the Rhine, Operation Market Garden, Battle of the Bulge and the Battle for France are recreated.

Experience all the dangers and excitement of being Supreme Commander.

Non-stop action takes place in accelerated real-time. Either battle solo against the computer, or head-to-head against an opponent.

Decisions are constantly required as you maximize use of your resources. Success depends on how well you analyze and respond to tactical situations. And on your leadership qualities and judgement.

Get ready to take your place among history's greatest commanders.
