DALEK ATTACK

It's the year 2254 and Earth has been invaded by the most ruthless and vicious race in the universe The **DALEKS**. Under instruction from their leader, the evil Davros, they have captured four major cities, **LONDON, PARIS, NEW YORK** and **TOKYO**.

Each city has been sealed off using a dome force field, and the **DALEKS** have constructed huge ozone destroying machines, which have been carefully located in each of the cities. To ensure success the **DALEKS** have not come alone. They have brought with them their henchmen the **OGRONS** (war loving ape like creatures, who obey their every command), also vile **MUTANTS** who have developed a taste for Earthlings, **DINOSAURS** who have been cloned and programmed to attack humans, and of course a range of their huge **ROBOT SUPER GUARDIANS** armed with the very latest weaponry. The **TIMELORDS** have summoned the '**DOCTOR**' to help the humans combat this terror and save the Universe from the evil of the **DALEKS**.
