RICOCHET

After more than a year's silence the Mekon stirs again from his hideout in deep space. His ambition to be ruler of Earth has not shaken in its resolve.

This time the Mekon has instigated immense scientific development and has produced a new, genetically engineered race . . . the SUPERTREES! He has also constructed a space ship to launch his dastardly creations on the Earth and is now on his way! Only Colonel Dan Dare can defeat the Mekon and the only way to do it is FACE TO FACE!

DAN'S MISSION

There are four levels to the Mekon's ship, each level houses deadly Supertrees, enclosed in Plexiglass Life Support Bubbles. Dan must penetrate all four levels, locate all the Supertrees and sabotage their control boxes before the level destruct sequence scatters them into the Earth's atmosphere. When all control boxes have been

Once again the Mekon poses a deadly threat to the Human Race but he can be stopped – we hope – by Colonel Dan Dare, the hero of a thousand space missions!

RICOCHET

MANUFACTURED IN THE U.K.

RI-COCHET

shot, Dan has to reach the passage connecting the present level with the next one.

MEKON'S MISSION

Like Dan, the Mekon, with the help of his Treens, must also locate all the Supertreens. When found, he manually activates their life support control boxes and ejects them into space.

LIVES

The player starts the game on level one with six lives. A life is represented on the bottom score panel by a small red dot.

The game will end if either all six lives are lost, or the player is caught in the level-destruct blast unprotected.

CONTROLS

Joystick Only

LOADING INSTRUCTIONS

Type LOAD "*",8,1 and press RETURN. Program will load and run.
