HINTS AND TIPS

COMMODORE 64/128

AT THE START OF THE GAME DAN HAS 24 GRENADES. HE WILL NEED AT LEAST 10 TO DESTROY THE MEKON, SO KEEP COUNT!
WHEN SELECTING ACTIONS BE CAREFUL, THE WRONG CHOICE COULD LOSE DAN VALUBLE ENERGY.
IF DAN DEFEATS THE MEKON A SHORT CUT WILL OPEN UP, ENABLING HIM TO ESCAPE QUICKLY.
REMEMBER, DAN WILL NOT LEAVE THE ASTEROID WITHOUT HIS CHUMS...
TO ESCAPE DAN MUST RETURN TO THE PLACE HE LEFT THE ANASTASIA.

AMSTRAD 464/664/6128

IT IS A GOOD IDEA TO SKETCH OUT A SIMPLE MAP WHILE PLAYING.
BEWARE OF TREENS HIDING BEHIND THE GIRDERS.
SOMETIMES IT CAN BE A HELP TO GET CAPTURED WHILE RETURNING TO DIGBY, AS OCCASIONALLY THIS WILL PROVIDE A SHORT CUT.
