

DONKEY KONGTM JUNIOR[★]

Remember in Donkey Kong how Mario fought Papa Donkey Kong? Well Mario won, and now he has Papa locked up in a cage! Only Donkey Kong Junior can save Papa. You must help him retrieve the special key to unlock the cage. But Mario has other ideas...

As you nimbly climb trees and gracefully swing across vines towards your goal, Mario sends jaw snapping creatures after you. You earn bonus points by plucking fruit to drop on them. When you have beaten your first challenge, another scene appears with even greater dangers, the fourth level is the most difficult of all.

You can do it because you are a chimp off the old block!

★ Three skill levels ★ One or two players ★ Joystick required

★ For Commodore 64/128 computers
