*

- Joystick Controlled Flying Dragon
- Map, Negotiation, & Flying Screens
- Thread-Fighting Action
- 3 Speeds
- Joystick and Keyboard Controlled
- One to Four Players

RATING:

The Red Star has once again entered Pern's orbit, bringing with it the destructive Thread. As Weyr Leader, you are faced with a two-fold task. First negotiate alliances with Lord Holders and Craftmasters to form the strongest Weyr on Pern. Then, once the Thread begins to fall, mount your fire-breathing dragon and shoot down the Thread in a fast paced, joystick-controlled action sequence.

Go "Between" when you or your dragon are wounded in the Thread fight. Negotiate, duel, or compromise in the all important strategy sessions. Ask a Craftmaster for assistance in your dealings with the Lord Holders, or go at it alone. Invite prospective allies to a wedding or a dragon hatching. Each of these events are critical to your success. Choose well, the future of your Weyr depends upon it.

All the action and excitement of Anne McCaffrey's books are brought to life in this exciting role playing action/strategy game.

EPYX CODING

To help you choose the game that's right for you, EPYX games are coded to indicate the degree of emphasis on "Action," "Strategy" or "Learning." These symbols will appear on the front of all EPYX packages:

Action

Strategy

Learning

* Screens from Atari® version of game.
