

Yeh! decided!
This is me Edd the duck
starring in my very own, first
ever computer game about
me and my showbiz life at the
B.B.C. Being a full time
magician is no easy task!
I have to deal with one of the most
departments in television
centres and help collect stars
that I take in to the top 10
and you from the evil
"angels" with my special
snowball shooter (one blue
and one red!)
Well, welcome! It's great!
and I'm in it!
Well, see
you!

Edd the duck
xxx

P.S. the evil angels are
nearly as ugly as Wilson the
butler!!

BBC 1986

Edd the Duck, superstar, pop
singer, and all round cool dude,
starts his new series on BBC's this
week. The series, split into two
episodes, chronicles his exciting
escapades around the various
departments of the BBC Television
Centre.

Could this be the program to
launch Edd's superstardom on to a
new plane? Watch out on a small
screen near you.....

GAMESPLAY

EDD THE DUCK has to out manoeuvre his opposition as he travels upwards through the bowels of the **BBC**. To help him succeed, the Special Effects Boffins have developed a Snowball Shooter which **Edd** can use to Freeze his opponents for short periods of time. Pressing **Fire** allows **Edd** to throw a snowball.

On each scene, **Edd** has to collect all of the **20 Stars** before he can progress to the next episode. If he falls, the filming must stop and **Edd** loses one of his four takes.

Edd has to collect stars from the following Departments in the Television Centre, whilst avoiding Wilson the Butler and his cronies:

Weather
Special Effects
Childrens' TV

The ON AIR light is flashing, and the audience is just a buzz in the background - **EDD THE DUCK** is off on yet another smash success !!

JOYSTICK CONTROLS

Edd is controlled by a **JOYSTICK** connected to the relevant port on the Commodore computer. Pressing **Fire** allows **Edd** to begin the game in the Weather Department.

"Runstop" -	Freezes the Take
"Space" -	Starts the Take
"Q" -	Ends the "Shoot" when the Take has been frozen
