Discover the secrets of *The Eidolon*, a mysterious 19th century machine powered by the forces of magic. If you can control the powerful energies of this ancient apparatus, an unseen world is yours to explore. *The Eidolon* lets you teleport and transform enchanted creatures—*Greps*™, *Biter Birds*™ and *Bottlenecks*™. And challenge the "intelligent" *Guardian Dragons*. You can create and capture magic fireballs... perhaps even alter the flow of time itself!

And whatever happened to the machine's mysterious inventor? Only the adventurous of spirit will know his fate. *The Eidolon*—scientific curiosity, or passport to a magical dimension?
