F-14 TOMCAT

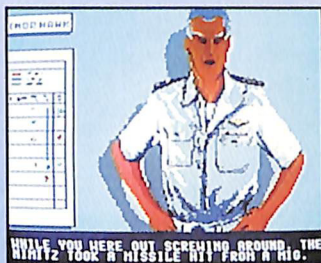

The Naval Fighter Weapons School Simulation

Will they call you "Deadeye" or "Tinkerbell"? Find out in the toughest fighter training ground in the world. You'll earn your wings as a Navy cadet and move up the ranks to pilot your own F-14 aboard the carrier USS Nimitz. Through two tours of duty over the deadliest skies today, you'll fight to attend the Naval Fighter Weapons School (nicknamed "Top Gun"). Match your skills against the top dogfighters in the Navy. Or jump right in and fly any of 80 randomly assigned missions.

Splash one bogey. Take out MIGs with your Sidewinder or Phoenix air-to-air missiles. It's up close and personal with your M61A1 Vulcan Cannon.

You don't know what a good chewing out is until you've ticked off Admiral Hawk. Wipe that smirk off your face, lieutenant.

Cool off, hot shot. A Russian SU-22 knocked you out of the sky and you're cold, wet, and humbled. If you're lucky, they'll let you fly again.

Take on the best pilots in one-on-one dogfights at the Naval Fighter Weapons School to find out who is the real top gun.
