FORMULA ONE
GRAND PRIX RACING SIMULATION

ELECTRONIC ARTS™

Rick Koenig became fascinated with computers while operating the computerized attendance system in high school. Needless to say, Rick's name never showed up on the absentee list. Rick's experience in racing games has culminated in Ferrari Formula One. He wanted to make a point-of-view racing game that would capture Formula One racing. "It's the most exciting and sophisticated racing in the world," Rick says, "and of course, Ferrari is a racing legend." Rick's hobbies are windsurfing, water skiing, four-wheeling, and getting "airborne" in his off-road motorcycle.

Ricks Begeisterung für Computer geht auf seine High School Zeit zurück, als er für die elektronische Abwesenheitskontrolle zuständig war. Ganz klar, daß sein Name niemals auf der Liste auftaucht! Seine Erfahrungen mit Rennsimulationen landeten ihren Höhepunkt in Ferrari Formula One, wo es ihm darum ging, die Spannung und das Fieber des Parcours absolut realistisch umzusetzen. "Ferrari ist eine moderne Legende, das Feinste vom Feinen im Automobilrennsport!" Ricks Hobbies sind Windsurfing, Wasserski, Four-Wheeling und Luftsprünge auf seinem Motorrad.

Rick Koenig rimase affascinato dai computers quando per la prima volta, alle scuole superiori, conobbe un sistema computerizzato. E' superfluo dire che il nome di Rick mai appariva nella lista degli assenti. L'esperienza di Rick ha il culmine nel gioco Ferrari Formula Uno. Il suo intento era quello di fare un gioco di gare automobilistiche della Formula Uno. "E' la piu' sofisticata ed eccitante gara del mondo", dice Rick, "Naturalmente, la Ferrari e' una leggenda. Gli hobby di Rick sono: wind-surf, sci nautico, automobilismo, e correre con la sua motocicletta da enduro.
