- ★ Find the Sanctuary and use the spade to dig up bits of bodies in the graveyard.
- ★ Walking in and out of the Sanctuary, toggles between two different worlds.
- ★ Skeletons can be dealt with by smashing them into a heap with the pickaxe.
- ★ A cardiac arrest can be soothed by spending time in a safe or sanctuary area, where the heart rate will slow to normal.
- ★ In the dungeons prisoners are chained to the wall. If you free them while they are alive they will run away. Each prisoner carries a part of Frankenstein, so club them dead with the pickaxe before you release their chains.
- ★ When you have collected all the parts, you will be allowed to the top of the tower where Frankie's Dad is waiting for them. You also need a plug to switch on the machine.
