## THE 1988 U.S. OLYMPIC TEAM GAME

**You've been waiting your whole life to play on this team.**

Imagine facing the world's greatest athletes in eight demanding, nerve-racking, sweat-inducing events. It's the opportunity—and challenge—of a lifetime.

### **The official test of your power, skill and guts.**

You'll sprint down a 110 meter track, clearing hurdles in a fraction of a second. Then you'll jam a pole into the planting box and vault over a cross-bar, aiming for a world's record.

You'll rely on every ounce of your strength to hold a handstand in the rings competition. Then slide effortlessly into a huge pool as you complete a perfect back-somersault-triple-twist dive.

If you're the best, you'll proudly wear the gold...and make history.

- ▶ **Eight thrilling events** (Velodrome Sprint Cycling, Hurdles, Pole Vault, Hammer-throw, Uneven Parallel Bars, Rings, Archery, and Springboard Diving).
- ▶ **Opening and awards spectacles** set in incredibly realistic scenery.
- ▶ **First-person views, dramatic camera angles, Diamond Vision™ and 3-D scrolling—plus exciting sound effects.**
- ▶ **Multiple player option, each player competing for a different country. Or you can compete against the computer.**
- ▶ **Coach book to help boost your scores.**

Good height... neat tuck... perfect entry!

You're banking at a 35° angle! Catch the draft and cruise to the gold.

Keep it smooth and watch those transitions—the judges sure are.

Fire over the hurdles to a power finish.
