GUNSLINGER™

A Graphics-Text Adventure

You are Kip Starr, former Texas Ranger. You've been peacefully travelling the west since your lawman days, but your past has finally caught up with you! Your old Ranger pal, James Badland, a hotheaded young fellow, is in trouble. He's in jail in Tijuana and due for hanging in two days. On top of that, the Dalton brothers, all six of them, are out of jail and gunning for you.

Find adventure in a gold-rush ghost town, an Indian village, and a US Army fort on your way to Mexico to rescue James from the hangman's noose. You face the perils of crooked poker games, runaway mine cars, dangerous waterfalls, ambushes, and many other challenges of the Old West. When you finally find your friend, the two of you must head for Tombstone and, shoulder-to-shoulder, face the Dalton boys at the OK Corral.

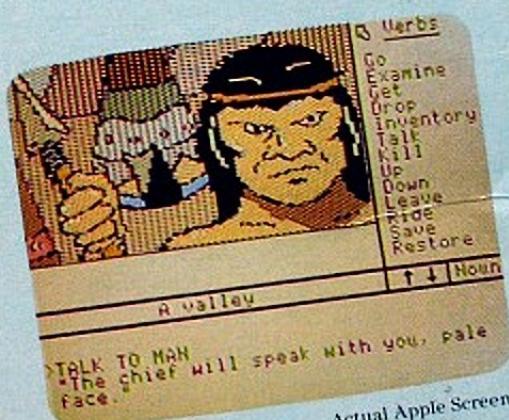

So, load up your six-shooter, polish your spurs, and get ready for an exciting wild-west adventure!

FEATURES:

- Beginner level graphics-text adventure game
- More than 100 high-res screens
- Either Keyboard or Joystick controls
- Save any number of games
