

COMMODORE 64/128

HACKER™

You've found your way in.
But is there a way out?

RICOCHET BY

MASTERTRONIC

You've stumbled onto something during a late-night session with your modem, accessing a remote computer. Somehow, you've made a connection with a computer you didn't know existed. PLEASE LOG ON is the prompt.

This is the ultimate simulation of computer hacking, without the risk of prosecution or the liability of a huge phone bill! But just bear in mind that systems sometimes crash . . . passwords can be obvious . . . think laterally all the time.

Hacking, the ultimate intellectual pastime, according to its devotees. Are you good enough to be a hacker? Can you hack Hacker?

LOADING INSTRUCTIONS

Hold down SHIFT key and press RUN/STOP. Press PLAY on tape. Program will load and run.

A MEMBER OF THE VIRGIN MASTERTRONIC GROUP OF COMPANIES

Made in Great Britain Design: Words & Pictures Ltd., London

CBM 64/128

HACKER

RC
033

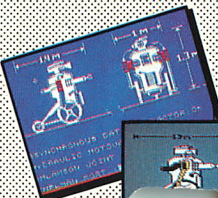

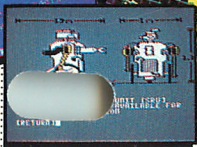

MANUFACTURED IN THE U.K.

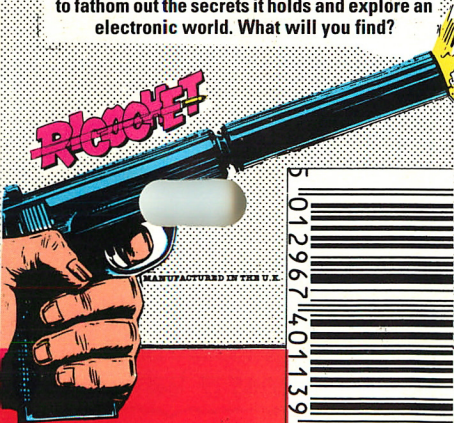

Pit your wits against the designers of the host computer system, hack deep into the machine to fathom out the secrets it holds and explore an electronic world. What will you find?
