## *The Aim of the Game*

An all action large scale arcade adventure in which you'll need every ounce of skill and courage to destroy the forces of evil.

Far, far away, beyond the mists of time and space there is a great city which was protected from the forces of evil by the Golden Talisman. Death and destruction now hang over the city where the 5 pieces of the Talisman are scattered in a forbidding labyrinth guarded by the lost souls of your predecessors, reincarnated as monsters.

You must find your way through the maze of tunnels and underground watercourses collecting useful objects on your way. You will need spells as well as continuous firepower to destroy the fireball breathing dragons.

Before diving into the deep pools, ensure you have enough air and remember you can only climb out onto the hanging ropes.

Your skill and courage can piece together the Talisman, find the evil Wizard who has cursed the city and release the people from their torment.
