Our latest surveys indicate Jimbo's marketability at an all-time high as a result of that incredible first encounter with the Mad Leader. Why, he's so popular now, he could sell quill pens to a porcupine. And yet, he still takes time out to do public service announcements about the perils of going out in wet weather without galoshes. The man just gives and gives and gives...

This great generosity and selflessness on the part of Johnny McGibbits is just what I had hoped for. He has turned helplessly soft. His mind has turned to GOO. He thinks only of his next commercial or of shaping the minds of hapless little children. He so enjoys talking to them. He has left the world of attack helicopters, Gas grenades and explosives behind.

Infiltrator II

by Chris Gray

You are still the one and only Captain Johnny "Jimbo Baby" McGibbits, *The Infiltrator*. It seems like only yesterday that your daring heroics left the Mad Leader in ruins, nipping his plans for world domination in the bud.

But intelligence reports indicate that the Mad Leader has risen from the smoldering ashes in which you left him. Once again, the world is in peril and only you—world-class sprinter, aerospace engineer, consultant to every free-world leader of the last two decades, and ace helicopter pilot—can stop the Mad Leader. Too bad; it looks like you'll have to postpone the christening of the USS McGibbits and that little *soiree* you had planned with Vanna this evening.

After all, you'll be busy flying your Gizmo™ DHX-1 Attack Chopper behind enemy lines in search of the Mad Leader's new headquarters. Once there, you'll begin an all-new series of ground missions to thwart the Mad Leader's revitalized troops. But be careful! This time, the Mad Leader knows who he's up against!

Featuring:

- Three completely new ground missions
- Realistic helicopter flight simulation
- Great graphics and sound
- A new challenge in this follow-up to the best-selling **INFILTRATOR**
