

Infiltrator

by Chris Gray

Commodore® 64/128 Disk

What people everywhere are saying about the **INFILTRATOR**TM

"Yeah, I know 'Jimbo-Baby' all right. He can really sing up a storm! Why that one time when he was singin' during the Super Bowl half-time show... Whew, it was awesome. The fans never would of let him go, 'cept he had to get back out on the field to quarterback his team to victory... He did do that two-hour post game concert though..."

—Charley Berfield
McGibbits' former music arranger and surgical scrub nurse

"Johnny is so cute, I could just die!
He's much better looking in real life..."

—Queen Lizbeth II
Monarch and President of McGibbits Fan Clubs Int'l.

"He was a beautiful baby. Never caused me or his father a spot of trouble. Oh sure, he'd do a piece of mischief now and again. But I don't really think anyone much minded him rebuilding the Town Hall over on Main Street when he was 12. I mean, it did give work to just about everyone in town. I just wish he'd settle down a bit, maybe get married. A grandchild would be kind of nice..."

—Mary "Mom-Baby" McGibbits
McGibbits' mother and his chief nuclear armament analyst

ETC.

"Why, the McGibbits Act is probably the single most important piece of legislation introduced in this century! He drafted it, got it passed, signed into law, and still had time to change into his tux and collect his Academy Awards for Best Actor and Director. And that was just yesterday..."

—Senator Roger Nichols Gosser III
McGibbits' fellow U.S. Senator and VP of Autograph Disbursement for McGibbits Fan Clubs Int'l.

"My intelligence reports state unequivocally that he occasionally forgets to floss when brushing his teeth! HA! And this is the kind of man you send to defeat me! HA! Hahahahaha hahahahahahahahaha....."

—The Mad Leader

To me is
Human, to not
is McGibbits!

—Johnny "Jimbo-Baby" McGibbits
(The Infiltrator)

Mindscape, Inc. is an electronic publishing subsidiary of SFN, one of the country's leading educational publishing, information, and communications corporations. Mindscape is dedicated to the production of superior software for today's microcomputer technology that combines the best in entertainment, personal productivity, and educational value. Our products stretch the limits of the computer; the result: software that challenges the mind.

ALERT™

INFILTRATOR™

by Chris Gray

You are Captain Johnny "Jimbo Baby" McGibbits—The Infilitrator: Ace helicopter pilot, ballistics expert, neurosurgeon, rock star, motorcycle racer, and a devil-may-care all around good guy with a nifty haircut. Your mission is to fly into the country of the Mad Leader and carry out operations which will completely disable his plans for war. Ultimately, you are to eliminate the Mad Leader himself, as surely the world doesn't need yet another man who spits when he speaks and starts all of his sentences with the word "basically."

This is a most dangerous and difficult assignment. You will be required to fly through hostile enemy airspace in what has

been disguised to look like a neutral helicopter, reach several important target areas, and carry out specific missions to help destroy the Mad Leader's military force. There will be no time for acting or motorcycle racing this time. Or will there?

Featuring:

- The ultimate, realistic helicopter flight simulation
- Exciting animated graphic adventures
- The chance to win for yourself honor, fame, the respect of millions, and a lot of cash from your best friend who's betting you'll kick the bucket on this one
