DESIGNED ABROAD

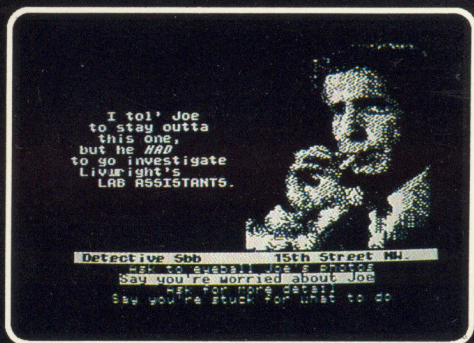

Intrigue!

What are the reviewers saying about Intrigue?

- Run Magazine—Mike Hinshaw:
"Perfect for those who love old movies, adventures, mysteries or puzzles. . . the best text/graphic game I have ever encountered to date."
- Boston Computer Society Apple Press—Brigate Grossman:
Gives "interactive games a new dimension."
- InCider—Editor's Choice 1986:
Intrigue is the first entertainment software ever selected as editor's choice!

The Plot Thickens. . . .

Someone kidnapped your brother, Joe! Was it the hard-boiled agent, Kruger? The urbane third-world ambassador? His gorgeous secretary, Lisa? Why does that Post reporter-lady know so much? Could the desperate cabbie be involved? And who's that Spanish-speaking fellow by the Washington Monument? You'll find out "who dunnit" by talking with the people you meet in D.C.'s streets, hospitals, bars, malls, embassies. . .

Screens shown are Apple.
Other versions may vary

Special Features Found in Intrigue!

- More than 2000 possible solutions!
- The game is different every time you play!
- Characters change expressions as you interview them!
- Solve the mystery by yourself or compete with up to three other players!
- Comes with hints! (For use only when utterly stymied.)
- Choice of either male or female interaction.

**A software mystery like you've
never experienced before...**
