

JOURNEY

Remember those fast adventures where you used to kill dragons with words ...?

Journey brings real life action into the comfort of your living room where you engage in the search to locate 11 of the world's famous treasures. History tells us that the treasures have been buried in underground chambers for centuries and only few will have the talent necessary to survive the long and dangerous search. Some of the dangers that lurk below are already known to you from information passed on by previous expeditions, however, most will come as a surprise as you enter the inactive gas chamber and begin your first treacherous climb...
