ACTIONBIKER

The Aim of the Game

Steer your action biker through this four way scrolling city picking up the forty items scattered around to help you overcome the obstacles such as the lake, fairground and building site. The faster you go the higher your score - so look out for items that will speed up your bike like the turbo charger, the gearbox that will allow you to change down for more acceleration and the larger gas tank to give you more endurance - but you can refill at the gas station. Can you get to the drag race at the end?

Bike Controls Joystick

Fire button to change gear when you have found the gearbox

Keyboard

N	—	LEFT
M	—	RIGHT
A	—	ACCELERATE
Z	—	DECELERATE
SPACE	—	CHANGE GEAR

COMMODORE 64/128 LOADING

Set up your computer according to your computer manual. Insert disk into drive. Type LOAD "★", 8, 1 (press the RETURN key). The game will then load and run automatically.

ATARI LOADING

Switch on disc drive, insert disc, wait for busy light to go out, hold down option button whilst switching computer on.
