DENARIS

Throughout time, Man has been a victim of his own intelligence and his insatiable thirst for knowledge. The planet Denaris is a horrifying example. Scientists created machines which became so sophisticated they no longer depended on Man – and so began a rule of tyranny. The Denarian people tried in vain to destroy the machines with a mighty ballistic missile, but from the ashes of the nuclear fires, the machines rose up – more powerful than ever. Trapped in an underground stronghold, now the Denarians' only hope for freedom is the DS – H75 Eagle Fighter – an ultra-refined space glider. Control the Eagle Fighter in this epic crusade against evil, and win freedom at last for Denaris...
