KID GRID

by Arti Haroutunian

Joystick required.

Connecting the dots on our colorful grid should be easy, right? Wrong.

Because the bullies are in hot pursuit!

Squashface, Thuggy, Muggy and Moose are their names. And *you* are their game. And what's worse, they're faster than you are.

But you're smarter. Shiftier, too. And you control the stun button. Use it to freeze the bullies and make your escape. Stuns, however, are limited. Use them up and the advantage shifts to the bullies.

So keep your eyes peeled for the mysterious disappearing question mark, don't slow down at corners and, above all, don't get caught!
