About Our Company: We're an association of electronic artists who share a common goal: We want to fulfill the potential of personal computing. That's a tall order. But with enough imagination and dedication, we think there is a good chance for our success. Our products like this are evidence of our intent.

Mike Abbot and Nana Chambers hail from sunny San Diego where both graduated from UCSD (that's University of California, San Diego) in 1987 with degrees in Artificial Intelligence. In 1983, when Mike was just a pup he created one of EA's first big hits, Hard Hat Mack. When not programming or watching volleyball tournaments in Mission Beach, the two like to spend time snow and water skiing and scuba diving.

Sinjin Smith and Randy Stoklos are the top earning Pro Beach tandem of all time. They have been winning together since 1982.
