

TERMINAL SOFTWARE

commodore 64

THE GAME: LAZY JONES is a series of games in one game where you must become Lazy Jones — the laziest and most skilled shirker in the business whose only ambitions are to improve his games-playing and avoid work at all costs. In LAZY JONES' hotel there are 18 rooms, most of which have their own computer game which you, as Jones, take every opportunity to play instead of cleaning — occasionally hiding in the broom cupboard and toilet to avoid being caught by your irate Manager — or the ghost of the previous manager — or to avoid running into your cleaning trolley and having a heart attack at the thought of work.

- ★ 100% machine code *SMOOTH* action
- ★ Hi-res flicker free *SPRITE* graphics
- ★ Full colour — High score feature
- ★ Play with Joystick or Keyboard
- ★ Fast Load
- ★ Original music for each screen with on/off option
- ★ Progressively more difficult.

LOADING INSTRUCTIONS

Hold down SHIFT key and press the RUN/STOP key. The 64 will respond with PRESS PLAY ON TAPE. Press the PLAY key on the cassette unit and the 64 will automatically load and run the program. When the program has been loaded press the STOP key on the cassette unit.

LIVES

You can select between one and nine lives. Lazy Jones loses a life when caught by his Manager, or the ghost of his previous manager, or by accidentally bumping into his cleaning trolley and having a heart attack when faced with the prospect of work!

HINTS

The Hotels 18 rooms are on 3 floors connected by a lift. To call and enter the lift, position Lazy Jones and press the Fire button. When the lift arrives indicate whether you want him to go up or down.

You will come across various obstacles which you may jump over by choosing your direction and moving up.

To enter each room, position Lazy Jones and press the Fire button. You may only enter a games room once, but if you survive all the games intact, you will be able to visit each game again, only this time things will be more difficult.

SCORING

Each separate game has its own score which is automatically added to your total score.
