CONTAINS TWO NEW 18 HOLE COURSES
FOR USE WITH YOUR **COMMODORE LEADER
BOARD GAME** (Purchased Separately).

 **ACCESS™**
Software Incorporated

EXECUTIVE TOURNAMENT DISK #1

CONTAINS TWO NEW 18 HOLE COURSES FOR USE WITH
YOUR **LEADER BOARD GAME**(Purchased Separately).

TO USE ***EXECUTIVE TOURNAMENT DISK***, DO THE FOLLOWING:

1. Load and run the standard **LEADER BOARD** game in the normal manner.
2. When the **SELECT NUMBER OF PLAYERS** screen is displayed, remove the game disk.
3. Insert the ***EXECUTIVE TOURNAMENT DISK*** into the disk drive.
4. While holding down the shift key, press **[RETURN]**.
The program will modify itself
and load Course A. Your computer is now
running ***EXECUTIVE LEADER BOARD***.

LOADING OTHER COURSES:

Once an **EXECUTIVE TOURNAMENT DISK** course has been loaded into your computer, you can have only 1 course in memory at a time. If you wish to play a different course, you must load it from disk and only courses from an **EXECUTIVE TOURNAMENT DISK** may be used.

TO LOAD A NEW COURSE FROM THE **SELECT NUMBER OF PLAYERS** SCREEN:

- A. While holding down the shift key, press **[RETURN]**. The prompt **INPUT COURSE** will appear. Type **A** or **B** for the course you wish to play.

NOTE: A **LOAD ERROR** prompt will appear if the load has not been done correctly. Make sure you have the correct disk properly inserted in the disk drive and repeat the procedure.

TO LOAD A NEW COURSE BETWEEN ROUNDS:

- A. When the scoreboard is displayed at the end of a round, press the joystick button.
- B. At the prompt **NEW COURSE Y-N** press **Y** to load a new course. Enter course **A** or **B** at the prompt **INPUT COURSE**. Press **N** if you wish to play the same course again.

NOTE: If a **LOAD ERROR** is detected, the **NEW COURSE Y-N** prompt will re-appear. Make sure you have the correct disk properly inserted in the drive and repeat the load procedure.

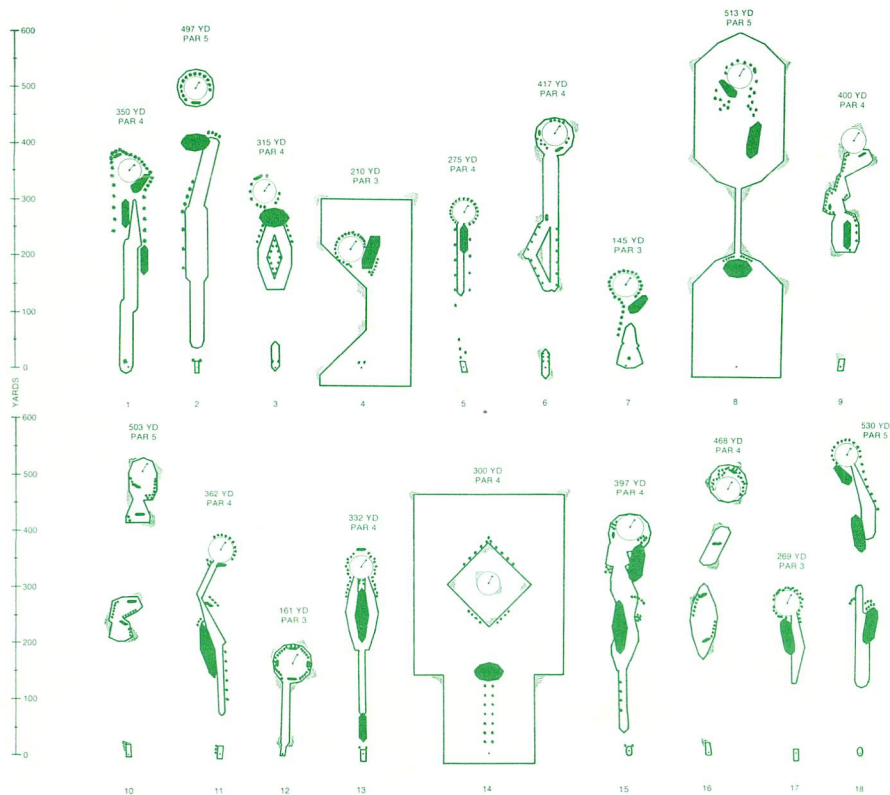

*The Difference between Standard and **EXECUTIVE** Tournament Disks —*

EXECUTIVE TOURNAMENT DISKS are much more sophisticated than standard Tournament Disks which you may have used with **LEADER BOARD**. The **EXECUTIVE TOURNAMENT DISK** will overwrite portions of the game program and, at the same time, load in one (1) complete course (18 holes) that has trees, rough, sand traps and more. Your computer is now running **EXECUTIVE LEADER BOARD** which differs from the standard version as follows:

1. The **EXECUTIVE LEADER BOARD** can retain only one (1) 18 hole course in memory. Other **EXECUTIVE** courses must be loaded from disk when you want to play them. An **EXECUTIVE TOURNAMENT DISK** contains 2 courses with file names **A** and **B**. File **A** is loaded automatically.
2. The **EXECUTIVE TOURNAMENT DISK** courses have trees, sand traps, and rough which the standard **LEADER BOARD** courses do not have. Once you have loaded an **EXECUTIVE TOURNAMENT DISK** course into your computer you cannot load courses from the **LEADER BOARD** game disk or from standard Tournament Disks, only courses from an **EXECUTIVE TOURNAMENT DISK**.
3. You can change from standard **LEADER BOARD** to **EXECUTIVE LEADER BOARD** by loading the **LEADER BOARD** game and then inserting the **EXECUTIVE TOURNAMENT DISK** into the disk drive and pressing **SHIFT [RETURN]**. You must turn the computer off and re-boot to return to the standard **LEADER BOARD** mode.

COURSE A

(AREA INDICATED IS THE FAIRWAY)

COURSE B (AREA INDICATED IS THE FAIRWAY)
