**3 SKILL LEVELS—9 ZONES—25 SCREENS
STARRING JET BOOT JACK**

The marauding Dragon terrorizes a once-peaceful kingdom. The King issues the challenge: Whosoever succeeds in killing the evil Dragon will be rewarded with the hand of the King's daughter in marriage! News of the challenge reaches Jack, who decides to accept, and sets off in search of fame and fortune.

The Dragon's lair is in the Knucker Chambers, a series of caverns reached only by decending through the Knucker-Hole. Brute force will not kill the Dragon. But, a friendly Wizard tells Jack that he will supply him with a deadly potion to kill the Dragon . . . in return for the retrieval of the Six Bells of the Holy Tower, stolen many years before, and now concealed in the Knucker Chambers.

The Wizard promises to supply Jack with a new pair of his famous Jet-Boots to aid his quest. The action begins . . .
