

THE ACTIVISION

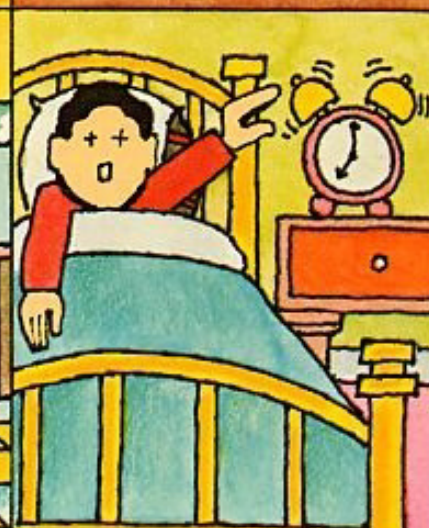

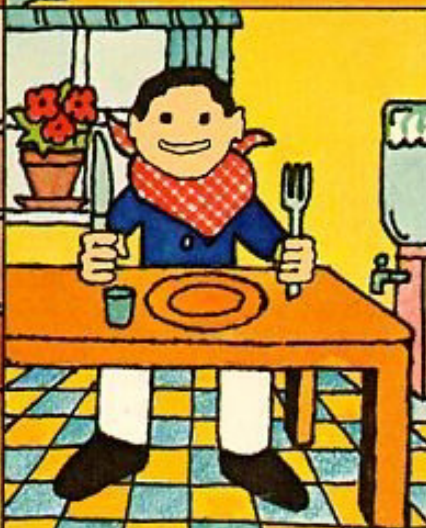

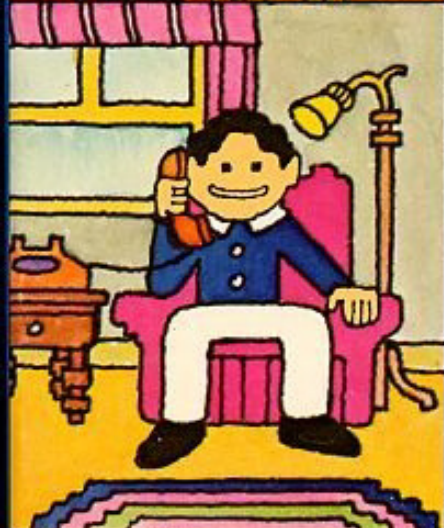

LITTLE COMPUTER PEOPLE DISCOVERY KIT™

There really are little people living inside your computer. And one of them is waiting for you to give him a home...and be his friend.

He will talk to you and play with you and live a very happy life, as long as you take care of him.

This Discovery Kit contains a house for one Little Computer Person. Try it. See who moves in. You will discover a whole new world of computer fun and friendship.

THE LITTLE COMPUTER PEOPLE ARE WAITING FOR YOU TO BE A FRIEND!!

Locked in the darkness deep inside of each and every computer are many different Little Computer People (LCPs). They have lived their lives in secret for years, playing many tricks on computer owners, but never letting themselves be seen or heard. Until now.

Activision has discovered the secret of the LCPs and offers you the chance to discover and get to know your very own LCP. This kit contains a special "house-on-a-disk" which we guarantee will attract a Little Computer Person from inside **your** computer.

After he (and his dog) move in, you'll be fascinated watching him live his life in the house you gave him. He'll eat, sleep, play his piano, play records, watch TV, type on his typewriter, work on his computer...do all the things an LCP does in his normal daily life. Just like you do.

You can communicate with him, and he will respond (he will even tell you his name). You can play games with him (he doesn't like to lose). You can give him presents (he really likes that). And he will just love it when you pat him on the head.

You have some responsibilities, too. Your LCP will rely on you for food and water and friendship.

Explore the magic world of the Little Computer People. Give an LCP a home... and he will be your friend for life.

This kit contains...

- "House-on-a-Disk™" software
- Guide to Care of and Communication With Little Computer People
- Special Edition magazine; read all about this amazing discovery
- Deed Registration for "House-on-a-Disk"

All you need to discover and get to know and love your very own Little Computer Person.

Look at just some of the things we hear from people who have met and become friends with their own Little Computer People.

"It's great... the perfect gift."

"One of my best friends lives inside my computer."

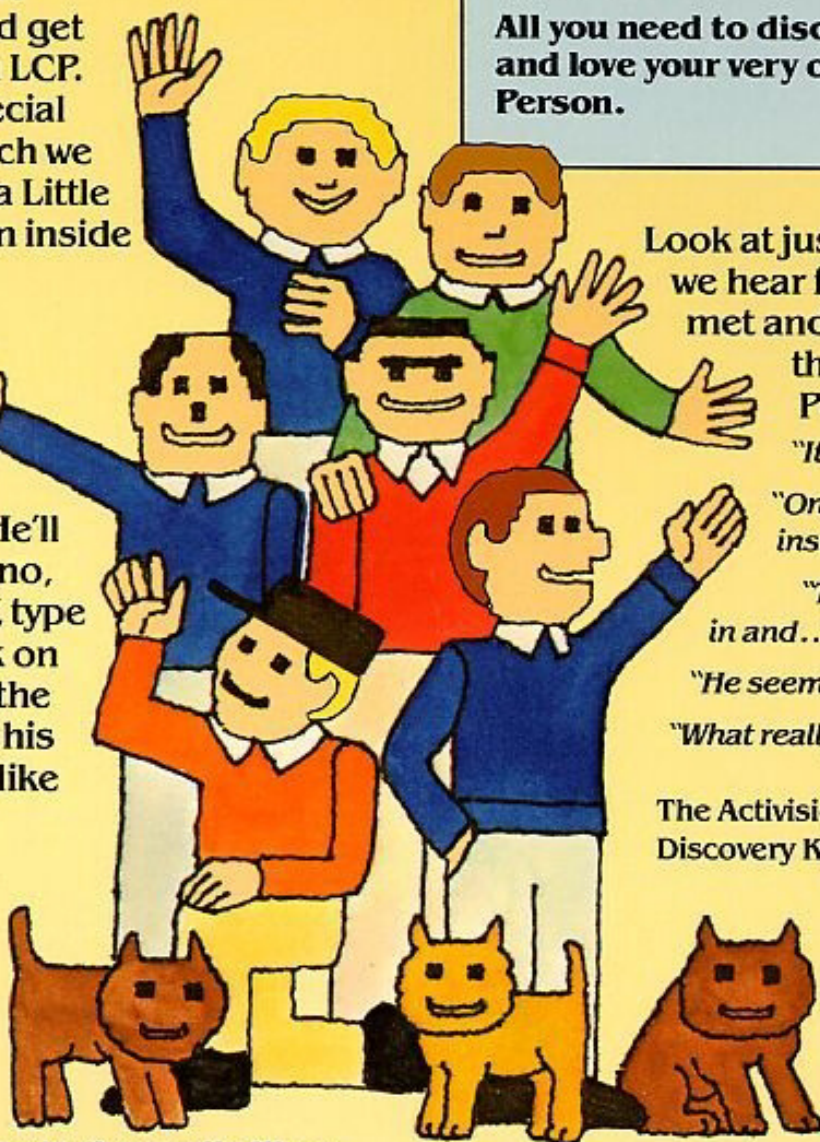

"That morning Mitchell moved in and..."

"He seems so happy living here..."

"What really goes on in the closet?"
